

ARCUS

The Colourful Eternity

The Colourful Eternity

ARCUS by Lian Hin features our colourful range of engineered surfaces including Quartz and Terrazzo. Versatile, lasting and made to suit every space.

ARCUS' Quartz collection is a trendy choice for kitchen tops, vanity tops and countertops, due to its easy maintenance and durability. They come in a wide range of colors and designs – you will be spoilt for choice!

ARCUS' Eternal Series is our premium range of Quartz slabs with an everlasting look, offering a classic style, natural stone appeal, raw texture, and refined marble effects.

ARCUS' Terrazzo collection is our latest range of surface materials. Add a touch of 'playful' into any space with our exclusively curated Terrazzo range.

Care & Maintenance for Quartz

ARCUS' quartz surfaces are non-porous, durable and easy to maintain. You can simply use a soft microfiber cloth to dust off the quartz surfaces. We also recommend using a damp cloth (lightly dipped in water) to wipe daily / when needed.

ARCUS' quartz surfaces are stain resistant. Stains can usually be removed with cleaners such as CIF. To remove oil stains or powder on **ARCUS'** quartz surfaces, rinse thoroughly & immediately with clean water. We also recommend avoiding acidic foods like tomatoes, citrus fruits, vinegar, etc. on the quartz surfaces.

ARCUS' quartz surfaces are heat resistant but we should avoid sudden & rapid temperature changes to prevent possible damage. It is recommended to use hot pads or trivets should any hot object be put on the top.

Even though **ARCUS'** quartz surfaces are scratch resistant, we recommend that cutting boards should always be used and avoid using sharp objects such as sharp knives or screw drivers directly onto the surface.

To avoid possible damage to the quartz surface, never clean the surface with products with Trichlorethane / Methylene Chloride or Caustic Soda. Please do not use harsh chemicals /abrasive cleaners as these will damage or dull **ARCUS'** quartz surfaces.

We do not recommend placing **ARCUS'** quartz surfaces outdoor or in places that receive strong emissions of ultra-violet rays.

Care & Maintenance for Terrazzo

ARCUS' terrazzo surfaces are relatively easy to maintain. You can simply use a soft microfiber cloth to dust off the surface. We also recommend using a damp cloth (lightly dipped in water) to wipe daily / when needed.

ARCUS' terrazzo surfaces are heat resistant but we should avoid sudden & rapid temperature changes to prevent possible damage. It is recommended to use hot pads or trivets should any hot object be put on the top.

Even though **ARCUS'** terrazzo surfaces are scratch resistant, we recommend that cutting boards should always be used and avoid using sharp objects such as sharp knives or screw drivers directly onto the surface.

ARCUS' terrazzo surfaces are porous and hence not as stain resistant as some other engineered surfaces. Hence, we would recommend removing any stain immediately, whenever possible.

Comparison Between Different Surfaces

Brand				
	Granite	Marble	Quartz	Sintered
What is it?	100% natural stone, a coarse grained igneous rock, formed from magma and quarried within the earth	100% natural stone, a metamorphic rock formed by the metamorphism of limestone	Man-made stone 80%-85% quartz, polymer resins and pigments compacted under intense vibration, vacuum, and pressure into dense non-porous slabs	Man-made stone, a composite of clays, feldspars, kaolin and quartz that are blended, compacted and fired above 1,200 degree Celsius
Appearance	Polished finish – unique in colour and patterning	Polished finish – unique in colour and patterning	Polished finish – consistent and uniform colour and patterning	Matt, honed, brushed or glossy finish – consistent and uniform colour patterning
Colours	Wide selection of colours	Wide selection of colours	Wide selection of man-made colours	Wide selection of man-made and mimicked natural colours
Heat Resistant	Highly	Average	Above average	Highly
Scratch Resistant	Highly	Average	Highly	Highly
Stain Resistant	Average	Poor	Above average	Highly
Chip Resistant	Average	Average	Above average	Above average
Non-Porous (will not absorb moisture)	Above average	Poor	Highly	Highly
Cleanliness	One of the most bacteria resistant surfaces	Not as easy to clean and maintain	Very bacteria-resistant due to non-porous nature	Very bacteria-resistant due to non-porous nature
Require Periodic Sealing	Yes	Yes	No	No

Lian Hin is the leading expert in multi-faceted surfaces like Granite, Marble, Quartzite, Quartz and Sintered Surface in Singapore.

At **Lian Hin**, we keep it simple. We weave quality aesthetics with practical functionality to create products that last and delight, ranging from feature walls to worktops and vanities.

We deliver our promise through **CANDEO**, **ARCUS**, **MURINNA** and **VULCAN**.

Our Philosophy

Delightful Encounters: Since our establishment, Lian Hin has always valued relationships with our partners and our customers. We create delightful encounters through timely and efficient communication. Our newly minted in-house technology system allows us to track, trace and provide up-to-date information for customers like you, ensuring a seamless experience and peace of mind.

Aesthetic Living: With the fusion of modern engineering and fine craftsmanship, Lian Hin creates products that last. From the source, each slab goes through stringent quality checks before it reaches the hands of our skilled experts. Our commitment to quality extends beyond our strict demands for surface material. We believe in going the extra mile to understand your needs and walk with you every step of the way.

Decision Simplicity: A fuss-free experience is our aim. Choosing a surface should be straightforward, not complicated. Paint your new beginning with Lian Hin's customised offerings. Indulge in our wide range of exquisite products from worktops to feature walls. Leave it to the Lian Hin experts as we cut and design the surfaces you desire.
