

**The Natural Beauty**

## The Natural Beauty

**CANDEO by Lian Hin** features our natural surface collections of Granite, Marble and Quartzite. These one-of-a-kind pieces are timeless and elegant, carefully sourced and precisely cut to fit any space.

**CANDEO's Granite collection** is a great choice for kitchen tops, vanity tops and countertops, owing to its heat- and scratch-resistant qualities. Granite's natural hardness protects it from abrasion and is one of the most durable natural surfaces available.

Granite is a coarse-grained igneous rock formed from magma (a mixture of molten or semi-molten rock, volatiles and solids) and quarried within the earth. It is a natural surface comprising quartz, potassium and sodium feldspar, micas and other minerals.

## The Natural Beauty

**CANDEO's Marble collection** is popular for flooring and feature walls due to its classic and elegant look. Most value its aesthetic, strength and resistance to heat (cooling surface material). Compared with Granite and Quartzite, Marble is slightly more delicate.

Marble is a metamorphic rock consisting primarily of carbonates like calcite or dolomite. Although it is usually white, beige or grey, it often has irregularly coloured marks due to impurities such as silica and clay. These marks give each slab of marble character and uniqueness.

## The Natural Beauty

**CANDEO's Quartzite collection** stands as a testament to natural beauty fused with exceptional durability, making it an ideal choice for a variety of applications, including island tops, kitchen tops, and so on.

Quartzite is a natural metamorphic rock formed from sandstone subjected to intense heat and pressure deep within the earth's crust. Its unique blend of quartz crystals and natural minerals like feldspar and mica, not only enhances aesthetic appeal with vibrant hues and intricate patterns but also boasts remarkable hardness and resistance to scratches, ensuring enduring performance in any environment.

Be it Granite, Marble or Quartzite, a **CANDEO** surface is naturally beautiful and uniquely yours!

# Comparison Between Different Surfaces

Brand	 <b>CANDEO</b>		 <b>ARCUS</b>	 <b>VULCAN</b>
	<b>Granite</b>	<b>Marble</b>	<b>Quartz</b>	<b>Sintered</b>
What is it?	100% natural stone, a coarse grained igneous rock, formed from magma and quarried within the earth	100% natural stone, a metamorphic rock formed by the metamorphism of limestone	Man-made stone 80%-85% quartz, polymer resins and pigments compacted under intense vibration, vacuum, and pressure into dense non-porus slabs	Man-made stone, a composite of clays, feldspars, kaolin and quartz that are blended, compacted and fired above 1,200 degree Celsius
Appearance	Polished finish – unique in colour and patterning	Polished finish – unique in colour and patterning	Polished finish – consistent and uniform colour and patterning	Matt, honed, brushed or glossy finish – consistent and uniform colour patterning
Colours	Wide selection of colours	Wide selection of colours	Wide selection of man-made colours	Wide selection of man-made and mimicked natural colours
Heat Resistant	Highly	Average	Above average	Highly
Scratch Resistant	Highly	Average	Highly	Highly
Stain Resistant	Average	Poor	Above average	Highly
Chip Resistant	Average	Average	Above average	Above average
Non-Porous (will not absorb moisture)	Above average	Poor	Highly	Highly
Cleanliness	One of the most bacteria resistant surfaces	Not as easy to clean and maintain	Very bacteria-resistant due to non-porous nature	Very bacteria-resistant due to non-porous nature
Require Periodic Sealing	Yes	Yes	No	No

**The Natural Beauty**

## Care & Maintenance Guide

To ensure that **CANDEO's** surface remains in perfect condition for decades to come, try cleaning the natural surface daily with a soft cloth or sponge, warm water and a few drops of mild dish detergent. Doing so would keep the surface polished and preserve its natural glow.

As natural surfaces are porous, we recommend sealing to be done prior to use. Do clean a stain as soon as possible so that it does not stay on that particular spot for too long, causing a permanent repercussion effect.

Natural surfaces like granite and marble are heat and fire resistant. However, to prevent possible damage, avoid sudden and rapid temperature, direct contact with flame, radiations as well as placement near objects with extremely high temperatures. We recommend using hot pads or trivets should any hot object be put on the top.

Do not use regular household cleaners such as glass cleaner, bleach or any other abrasive chemical on your natural surface. The acidity and other chemicals contained in these products will degrade the sealer and can etch the surface leaving it more vulnerable to staining.

**Lian Hin** is the leading expert in multi-faceted surfaces like Granite, Marble, Quartz, Quartzite and Sintered Surface in Singapore.

At **Lian Hin**, we keep it simple. We weave quality aesthetics with practical functionality to create products that last and delight, ranging from feature walls to worktops and vanities.

We deliver our promise through **CANDEO**, **ARCUS**, **MURINNA** and **VULCAN**.

### **Our Philosophy**

**Delightful Encounters:** Since our establishment, Lian Hin has always valued relationships with our partners and our customers. We create delightful encounters through timely and efficient communication. Our newly minted in-house technology system allows us to track, trace and provide up-to-date information for customers like you, ensuring a seamless experience and peace of mind.

**Aesthetic Living:** With the fusion of modern engineering and fine craftsmanship, Lian Hin creates products that last. From the source, each slab goes through stringent quality checks before it reaches the hands of our skilled experts. Our commitment to quality extends beyond our strict demands for surface material. We believe in going the extra mile to understand your needs and walk with you every step of the way.

**Decision Simplicity:** A fuss-free experience is our aim. Choosing a surface should be straightforward, not complicated. Paint your new beginning with Lian Hin's customised offerings. Indulge in our wide range of exquisite products from worktops to feature walls. Leave it to the Lian Hin experts as we cut and design the surfaces you desire.
